

Roman Coropat / Koropat

Frontend Developer

About: I am a determined and adaptable person with a passion for problem-solving and a strong desire to grow. My experience in working with complex information under pressure has taught me the importance of patience and flexibility in achieving success. As a team player, I am committed to continuously improving my skills and expanding my knowledge in order to contribute to company growth. I seek a position where I can utilize my skills and continue developing professionally.

Employment History

Freelance Web Developer

March 2022 - Present

- Built a personal website for a yoga instructor using HTML, CSS, JavaScript, and Bootstrap
- Participated in two manual QA testing projects, gaining experience in testing methodologies, bug reporting, and documentation
- Completed The Odin Project, Scrimba, and FreeCodeCamp programs to learn front-end web development, including HTML, CSS, JavaScript, React, and Node.js. Through these programs, I gained hands-on experience in building responsive web pages and web applications

While I did not work in a traditional employment setting during this period, my dedication to learning and my passion for web development has allowed me to build a solid foundation of skills and knowledge in this field. I am excited to bring my self-motivation and determination to a professional setting where I can continue to grow and contribute to a team's success.
